WorkBC Employment Services Job Posting Form

Job Description

Duties / Responsibilities Include:

- Plan, install and service plumbing systems, fixtures, piping equipment of new and renovated modular homes and outbuildings in an indoor factory.
- Study specifications in blueprints, sketches, or shop drawings to prepare project layout and determine dimensions and materials required
- Prepare layouts and patterns using measuring tools, including selecting materials, planning sequences and methods of work to measure and mark materials
- Installation of plumbing in modular units from rough-in to finishing
- Installation of water lines, drainage, fixtures and venting systems
- Assemble and install valves and fittings
- Locate and mark positions for pipe connections, passage holes and fixtures in walls and floors.
- Cut an opening in walls and floors to accommodate pipe and pipe fittings
- Measure, cut, bend and thread pipes using hand and power tools or machines
- Occasional on-site work may be required.
- Instruct and supervise junior trades and labourers.
- Assist with site cleanup, moving as well as organizing and purchasing of materials.
- Assist with manual labour and general construction duties as required.
