| Job Description | <p>Dürfeld Constructors (Dürfeld Log Construction Ltd) is a General Contracting / Construction Management firm that was established in Whistler in 1978. As Whistler grew so did our company gaining depth and experience in all aspects of construction. In the earlier years the demand was for log and heavy timber structures to which we responded with both tooling and personnel. More recently building design has become much more contemporary. As a company we recognize that a builder should not be defined by style but by its ability to construct accurately and efficiently while still respecting design.</p> <p>Known world-wide for our expertise in wood construction, Dürfeld is acknowledged as a design leader in the timber frame and custom home industry. Dürfeld has been involved in a number of award winning projects and has had the opportunity to construct homes across the world, from North America to Europe and Japan To that end we have well-trained and loyal staff (some have been with the company for over 25 years). They also understand the importance of working closely with engineers and consultants in developing models and defining solutions.</p> |

| | <p>We have a good relationship with trades and suppliers, which is critical in executing a project.</p> <p>In more recent years we have become keenly aware of the importance of building healthier and more energy efficient structures and have a very good understanding of “Building Science”. We have as a company embraced the “Passive House” model and built the first registered “Passive House” in Canada. When building structures where the target is not the “Passive House” standard our approach is still to be aware of thermal bridging and employ details and materials that create a superior envelope and result in exceptional airtightness.</p> <p>Roles & Responsibilities</p> <ul style="list-style-type: none"> • Administer first aid and first aid/safety documentation as required. • General clean-up and organization of job site. • Assist construction manager with site record keeping. • Assist carpenters with job related tasks. • Remove rubble and other debris from construction site. • Load, unload and transport construction materials. |
| Accessibility | |
| Desired Qualifications and Experience | <p>Qualifications & Experience</p> <ul style="list-style-type: none"> • Ideal candidate will posses First Aid (OFA) Level 2 or 3 Certification • Must hold a Class 5 Drivers License with a clean driving record. • General carpentry experience, competency with powertools. • Physically demanding work. <p>Additional Information:</p> <p>The position would be located on a commercial job site in Whistler. Dürfeld is looking for a long term employee and would support career growth and progression within the company.</p> |
